CBSE, March 2020

Percentage: 76.8%

Projects

Alumni-Connect (Frontend)

- Developed a responsive web application using HTML, CSS, and JavaScript.
- Implemented user authentication and profile management features to enhance user experience.
- Integrated a database for alumni data storage and retrieval, ensuring data integrity.
- Enhanced UI/UX design for better user engagement and accessibility.
- Conducted user testing to gather feedback and improve functionality.

Online Blood Donation Management System

- Utilized React for frontend development and MySQL for backend database management.
- Implemented Git for version control and collaboration on GitHub to streamline development.
- Designed an intuitive interface for users to request and offer blood donations effectively.
- Developed an admin panel for managing donor requests and approvals efficiently.

Excelir Intern – Python Django Web Development (Feb 2023 – Aug 2023)

- Developed a dynamic web application using Django framework, enhancing backend functionality.
- Collaborated with a team to enhance application features based on user feedback and testing.
- Conducted testing and debugging to ensure optimal performance and security compliance.

Octanet Intern – Frontend Web Development (Mar 2023 – Apr 2023)

- Created responsive web pages using HTML, CSS, and JavaScript, focusing on mobile compatibility.
- Worked closely with designers to implement visual elements effectively while adhering to branding guidelines.
